## **Foreword**

The work described herein was performed by the McDonnell Douglas Research Laboratories under NASA Contract NAS2-6601. The NASA Technical Monitor was N.S. Vojvodich, Research Scientist, Thermal Protection Branch, NASA Ames Research Center. This report is divided into two volumes. The first volume, NASA CR 114459, contains the main text describing the work performed and a discussion of the results. The second volume, the appendices, contains the calibration data, the model temperature histories, and the model physical measurements.

	Page
Appendix A: Heat flux and pressure profiles.....	1
Appendix B: Model temperature histories.....	5
Appendix C: Model weight and thickness changes.....	86

This document consists  
of a title page, pages iii and v  
and pages 1 through 96.

## Appendix A: Heat flux and pressure profiles
